

Report of fellow's home visit

Mentor Name : Sumit Kumar

Fellow Name : Jagdish Pandey

Date of home visit : 10/09/2011

Act: Dehradun

Fellow (Jagdish) Picture

Problems being faced by my fellow

- 1) Studies in Hindi medium govt. school but in coaching studies all courses in English. So, there is clash among the two mode of studies .
- 2) Faces problem in understanding English.
- 3) Stays in Dehradun at his uncle's (Taauji) residence.
- 4) His father is driver by occupation and works at Rudrapur .So, economic problems are being faced.
- 5) During my interaction with Jagdish, I found him enthusiastic and also got to know when he gets stuck with a problem he closes that subject .
- 6) Finds less time for self-study.
- 7) After school and coaching , gets tired and is unable to manage his schedules for self-study.
- 8) Coaching is very far from his residence. As , I myself had to walk over 20 minutes over streets to get to his residence. So it takes him over an hour to reach coaching, and another hour to get back.
- 9) In school Hindi terms confuse him with the English terms taught n coaching.
- 10) Has lack of info about what IIT-JEE exam is, how it is conducted, its syllabus and how to get through the barriers.
- 11) Facing problems with Mathematics.

Suggestions to him by me

- 1) To take only one medium of education. Preferably English would be good.
- 2) Take note of unknown words with their meaning.
- 3) Not to think about anything else as life after cracking jee would change for him.(As I told him).
- 4) When he gets stuck with any problem, mark that as doubt and ask that in coaching , even if he is unsatisfied then contact me.
- 5) I replanned his schedule as per his needs so that he gives his maximum output and doesn't get tired or bored of studies.

- 6) Suggested him if gets frustrated that I should leave preparation or anything like that then give me a miss call anytime , I will call him back and will talk to him over his problems to settle them down.
- 7) Suggested him to make a note of tough words and terms with their meaning and refer to it whenever he finds similar problem.
- 8) Suggested that when he switches to on mode of education, his problem of confusion will vanish.
- 9) Provided him with necessary details about jee exam, its syllabus, how it is conducted, pattern, its scopes and how to manage his time for all the three subjects.
- 10) Suggested him to give equal importance to all the three subjects viz. physics, chemistry, maths.
- 11) Solved his doubts in maths related to Trigonometry , Atomic Structure Doubts in Chemistry, basics of physics.
- 12) Regarding physics I told him that he is being taught by the Best teacher in this field(Mr. D.C. Pandey Sir).

Observations made :

- 1) Jagdish is sincere.
- 2) Completes whatever is assigned to him.
- 3) Enthusiastic.
- 4) Positive approach towards any problem.
- 5) Fights with any problem until it is solved.
- 6) Regular and really very hard working.
- 7) Sometimes finds him alone .
- 8) Had no role model as he was never exposed to this materialistic world.
- 9) Very simple in lifestyle and was calm and humble.
- 10) If he is taught well , he is surely gonna crack IIT-JEE exam.

Rest details will be edited on the mentioned fields of fellows profile.
