

## **Report type: Academic**

Fellow: Anuj kumar Yadav

Visiting: I have not visited his house, just met him during the first doubt clearing session.

School- Kanpur public school

### **About Anuj's recent performances:**

#### **MATHS:-**

He did not give the test. Told me that he had exams in school. Though according to my knowledge his school exams and the math test were not clashing.

Had doubts in logarithm.

#### **Chemistry:-**

He gave the test but he did not know his marks. I told him to ask his friends to see his marks and tell me but there was no reply. Told me that he would get around 40-50 out of a total of 150. He seemed pretty much satisfied with his performance.

#### **Physics:**

Told me that the test went well.

Had doubts in Newton's law of motion.

#### **My view:-**

He right now is going nowhere regarding his preparations for JEE, he does not have his goals set. During the doubt clearing session he did not ask a single question. In the second doubt removal session he was absent. I think this boy needs extra care.
