

## Third Doubt Clearing Session

### Mentor: Ishan Bose (MATHS)

- How many fellows were absent ??

Ans: 6

- Who were absent?

Ans: Sorry, I personally don't know all the fellows... just know them by face.

- Who were performing well in the class and who were not?

Ans: Most of them were enthusiastic... but the problem was that they did not do much of reading at home..

- Any fellow who needs special attention (academic and non-academic)?

Ans: Ankit Modi's fellow... he is thinking of clearing JEE in 2nd Attempt

- Any other noticing fact??

- Few of them have started thinking of clearing JEE in 2nd attempt
- They do not ask questions from their coaching teachers... instead they keep problems for us to solve.

- Suggestion regarding "doubt clearing session" like

- Need to be less frequent: so that they get a feeling that it's their task to get their problems solved by their coaching teachers.
- Should be organized in a different way: yes they should be called in to IIT instead of GUMTI, as it may save vital time on both of our parts..
- Positive and negative impact on fellows: they have started to take us for granted... as if it's our duty to make them clear JEE.. it's our duty to make them understand concepts..
- Any other problem (in organizing etc.) : I feel motivation level has fallen among the fellows.
